

Solutions Analyst

Full time

Location: Bonn (Germany) & UK

About LexisNexis & Cipher:

LexisNexis Intellectual Property Solutions is part of LexisNexis Reed Tech, a division of LexisNexis Legal and Professional. LexisNexis is a leading global provider of legal, regulatory, business information and analytics that help customers increase productivity, improve decision-making and outcomes, and advance the rule of law around the world. We're a part of the stock listed RELX Group, serving customers in more than 160 countries with 10,400 employees worldwide. To learn more, visit us at www.lexisnexisip.com

LexisNexis Intellectual Property aim is to bring clarity to innovation for our customers. Cipher is part of LexisNexis Intellectual Property and enables our customers to unleash the strategic value of patents. We believe that whenever a person works on a patent and understands the future trajectory of a specific technology, that person has the potential to fundamentally change how society operates. Cipher is committed to extracting value from patent data to enable companies and investors to make informed strategic decisions. We recognize the importance of intellectual property as a growing mainstream asset class and the role of patents in providing a window into who is leading technology innovation, where and at what pace. By harnessing the latest advances in machine learning combined with expert analysis, Cipher is disrupting how actionable insight is extracted from patent data. Information can now be accessed with efficiency, accuracy and at a speed that is just not possible by traditional methods. Our overall success is measured by how well we deliver these results.

About the Role

At Cipher we are committed to delivering high quality solutions, tailored to the requirements of our individual customers. As a Solutions Analyst, you will be a key part of the delivery team tasked with designing and deploying custom classification across our growing customer base. You will work closely with internal colleagues at all stages of the sales cycle, whilst also having the opportunity to work directly with our customers. We are looking for a dynamic, creative and results-oriented Analyst to join our team. Reporting into the Head of Solutions Operations, you and your

team will help Cipher & LexisNexis Intellectual Property achieve success and growth with its' IP and innovation-focused SaaS products and solutions.

What you will focus on:

The primary responsibility of this role will be the training of machine learning classifiers with patent data, across a variety of technologies and industries. The supervised learning is conducted using the Cipher Analytics platform and therefore requires no prior experience of machine learning techniques. Alongside the training of machine learning classifiers, you can expect additional responsibilities such as:

- Working with customers to understand their specific needs and challenges.
- Conducting desk-based research into various technologies and products.
- Defining and writing project scopes to form client classifier taxonomies.
- Training supervised machine learning classifiers with curated patent data to enable automated tagging of patents against specific technologies.
- Ad-hoc data analysis and presentation when required to meet a customer goal.
- Participation (often leading) customer meetings for scoping, data review and data presentation purposes.
- Supporting the wider account team on new business development and renewal activity when required.

What we expect from you:

No previous experience in machine learning, programming or data analysis platforms is required for this role. The core requirements are:

- A Bachelor's Degree (or equivalent experience).
- Intermediate Excel & PowerPoint skills.
- An interest in innovation and technology trends.
- Great collaboration skills and the ability to work in a multi-disciplined team.
- An analytical mind set and excited about data-led story telling.
- Great communication skills and the ability to take part in customer-facing activities.

Importantly, you must be a motivated self-starter who is able to prioritise work effectively to ensure projects are delivered in a timely manner.

LexisNexis, a division of RELX Group, is an equal opportunity employer: qualified applicants are considered for and treated during employment without regard to race, colour, creed, religion, sex, national origin, citizenship status, disability status, protected veteran status, age, marital status, sexual orientation, gender identity, genetic information, or any other characteristic protected by law. If a qualified individual with a disability or disabled veteran needs a reasonable accommodation to use or access our online system, that individual should please contact accommodations@relx.com or if you are based in the US you may also contact us on 1.855.833.5120.

To apply – please send your resume and a covering letter to our Careers team: careers@cipher.ai.
