

## Data Analyst

---

Full time  
Location: UK  
Department: Solutions

### **About Cipher & LexisNexis:**

LexisNexis Intellectual Property Solutions is part of LexisNexis Reed Tech, a division of LexisNexis Legal and Professional. LexisNexis is a leading global provider of legal, regulatory, business information and analytics that help customers increase productivity, improve decision-making and outcomes, and advance the rule of law around the world. We are a part of the stock listed RELX Group, serving customers in more than 160 countries with 10,400 employees worldwide. To learn more, visit us at [www.lexisnexisip.com](http://www.lexisnexisip.com)

LexisNexis Intellectual Property aim is to bring clarity to innovation for our customers. Cipher is part of LexisNexis Intellectual Property and enables our customers to unleash the strategic value of patents. We believe that whenever a person works on a patent and understands the future trajectory of a specific technology, that person has the potential to fundamentally change how society operates. Cipher is committed to extracting value from patent data to enable companies and investors to make informed strategic decisions. We recognize the importance of intellectual property as a growing mainstream asset class and the role of patents in providing a window into who is leading technology innovation, where and at what pace. By harnessing the latest advances in machine learning combined with expert analysis, Cipher is disrupting how actionable insight is extracted from patent data. Information can now be accessed with efficiency, accuracy and at a speed that is just not possible by traditional methods. Our overall success is measured by how well we deliver these results.

### **Role Purpose**

- Maintain and update corporate tree information ensuring best capture of organisations' parent and subsidiary structures.
- Extract actionable intelligence from classified patent data.

Entry level / early career development opportunity. No industry or patent experience necessary. Full training & support provided.

### **Data Analyst responsibilities:**

The primary responsibility is to maintain and update Cipher's corporate grouping information. This is done by accessing and interpreting publicly available information from various sources including press releases, financial reports, and investor relations presentations. A secondary responsibility is to analyse pre-classified patent data and present it in a way that is easy to understand and to deliver actionable insight. This is achieved through a combination of existing templates and the

creation of new data slices and visualisations that connect directly to client questions.

Success in this role requires close collaboration with account teams in understanding client questions and delivering high quality analysis to agreed timescales. The role requires desk-based research to gather data and information that feeds directly into internal and client-deliverables. There are opportunities and a requirement to work on a variety of data projects across the business and we want you to have fun and develop professionally while doing it.

The role is suited to results orientated individuals with an inquisitive mind who enjoy working with data, problem-solving and learning about new technologies and innovations. As we continue to grow there are plenty of opportunities for career development and advancement. This is limited only by an individual's capability and ambition.

The role requires strong analytical skills to slice, structure & present data so as it can be used as a key input to solve the challenges faced by the world's leading intellectual property teams.

**Your Qualifications:**

- Advanced Excel skills
- An interest in innovation & new technologies
- Passionate about data-led storytelling.

**Your Core Competencies:**

- Analytical
- Inquisitive
- Problem Solving
- Attention to detail
- Highly organised
- Results orientated
- Determined & resilient
- Self-starter / Motivated

**Benefits:**

We offer a competitive salary and benefits including 25 days holiday increasing to up to 27 with service, employee health insurance and pension plan. Flexible working model.

**Our Values:**

**Start With Why:** Seek to understand and empathise, the customer is our compass.

**Insight Not Data:** Slice through complex data to deliver actionable intelligence.

**Be Brave:** Challenge accepted practices, try new things, push ourselves and our clients.

**Team Up:** Reach out and rally round. We are one team with one mission.

Collaborate at every turn. **Enjoy the Ride:** We are on an adventure, buckle up, bring positive energy, and have fun.

LexisNexis, a division of RELX Group, is an equal opportunity employer: qualified applicants are considered for and treated during employment without regard to race, colour, creed, religion, sex, national origin, citizenship status, disability status, protected veteran status, age, marital status, sexual orientation, gender identity, genetic information, or any other characteristic protected by law.
